

Ford

THE UNIVERSAL CAR

Like the regular Ford cars the Ford Model T One-Ton Truck is a real farm necessity, just as it is the necessity of manufacturer, contractor and merchant. There is no question about it proving a money-saver right from the start. It is flexible, turning in a 40-foot circle; has a 124-inch wheel base; the regular Ford motor with worm drive—and has proven as economical in operation and maintenance as the Ford Touring Car. The price of the truck chassis is \$600 f. o. b. Detroit. We urge placing orders without delay in order to get reasonably fair delivery. The demand is big—come in and let us talk it over.

LOANS ON REAL ESTATE

We have an unlimited amount of money to loan on Real Estate. We make you a loan for 20 years, which you have the privilege of paying off at any time. You can pay it off the next day after you make the loan if you see fit.

Any amount you pay in advance is discounted to you, thereby saving a great deal of interest which you are compelled to pay in any other Company.

Our Company is the only one that will make you a loan, so that if you have a failure of crops you will have nothing to pay. You pay no commission at any time when you make a loan with us. If you have a loan in some other Company or if you are buying a farm you had better take a 20 year loan with us before the rate of interest goes up, which is sure to come very soon.

LAXATIVE for Aged People

THE BANE of old age is constipation. The bowels become weak and unable to perform their functions without aid. For this purpose only the mildest and gentlest laxative should be used. The use of harsh cathartics aggravates the trouble and makes the constipation worse. Chamberlain's Tablets are a favorite with people of middle age and older on account of their gentle action.

KING SCHOOL Attention! Please.

The Neekie social, which was announced for Friday evening, March 22, has been postponed until March 29.

Now you ladies who have neckties ready, just lay them aside for a few days. And you who have not made any, this will give you time to do so. Remember the change in date—from March 22 to March 29.

Portion of the proceeds to go to the Red Cross.

The Kaiser's effort to shake our faith in the Lord by claiming to be his partner is characteristic German camouflage, intended among other things to discourage your buying Liberty Bonds.

SHILOH

The Pneumonia Season

The cold, damp weather of March seems to be the most favorable for the pneumonia germ. Now is the time to be careful. Pneumonia often results from a cold. The quicker a cold is gotten rid of the less the danger. As soon as the first indication of a cold appears take Chamberlain's Cough Remedy. As to the value of this preparation, ask any one who has used it.

After many years of patient suffering the Master called Mrs. Eliza Powling from this life to his better and higher life above. In her death Colton loses one of its best types of a true, pure, devoted Christian womanhood and mother. She was united in marriage to the Rev. Elijah Powling. To this union were born three sons and two daughters. She united with the Church of God and remained a fervent believer in the Christian faith until death. Her work is begun, not finished but weary and tired in the service of the Lord, she fell asleep, March 1st, aged 72 years, to awaken in youthful strength and vigor. The funeral services were held from the Church of God March 5th, conducted by the Rev. E. W. Leatherman. Burial in Heath cemetery.

Mr. and Mrs. Reece Schultz gave a dinner in their home Monday to the friends and neighbors who kindly assisted Frank Ballard and wife move their household goods to their new home near Whitehouse. At noon 14 were seated at the table, which was filled with the many good things Mrs. Schultz knows how to prepare.

The Misses Garnet and Myrtle Davis are visiting friends in Indiana.

There Was Nothing So Good For Congestion and Colds as Mustard

But the old-fashioned mustard-plaster burned and blistered while it acted. Get the relief and help that mustard plasters gave, without the plaster and without the blister.

Mustard does it. It is a clean, white ointment, made with oil of mustard. It is scientifically prepared, so that it works wonders, and yet does not blister the tenderest skin.

Just massage Mustard into the finger-tips gently. See how quickly it brings relief—how speedily the pain disappears. Use Mustard for sore throat, bronchitis, tonsillitis, croup, stiff neck, asthma, neuralgia, headache, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frosted feet, colds of the chest (it often prevents pneumonia), 30c and 60c jars; hospital size \$2.50.

WILL NOT BLISTER

Why Not Drive Poison Out?

Do you realize that the kidneys never have a moment's rest? They work all the time, day and night, year in and year out, filtering poisons from the blood, and excreting them in the urine. If they fail, the blood becomes impure, and the body is poisoned.

When the kidneys fail, trouble begins. The waste matter accumulates in different parts of the system, and backache, swollen joints, aching muscles, pain in the head, blurred vision, puffiness under the eyes, or rheumatic pains result.

Foley Kidney Pills

Help weak, tired, disordered kidneys to do their work. They strengthen and heal the kidneys, and drive out the poisons. They are a splendid tonic action on the liver.

Mr. Louis Flint, 122 S. Jefferson Ave. Baulk Creek, Mich., writes: "For years I suffered from kidney trouble. My back ached, my head ached, and I was unable to do my work. I tried many remedies, but nothing helped. I then tried Foley Kidney Pills, and in a few days I felt much better. In a week I was able to do my work, and in two weeks I was completely cured. I feel ten years younger now, and I am a great admirer of Foley Kidney Pills. Two boxes, 50c each, will cure your system."

You can help your kidneys keep your system clean, by taking Foley Kidney Pills. Two boxes, 50c each, will cure your system.

INSPIRING ADDRESSES

(Continued from page 1)

The rules issued by the National Food Administration were based upon actual necessity and not upon mere theory. There is only one thing to do, and that is to comply with these rules and regulations to the letter.

Saturday's meeting was in the educational interests of the county. The teachers and members of the boards of education of the county gathered in conjoint session. One of the principal questions before the meeting was that of releasing boys from school for work on the farm. The conclusion reached was that no general or inclusive rule could be adopted; that each case should be considered individually, and where there was a manifest need for the boy on the farm and a request for his release in order to help with his labor, such request should be granted.

Miss Logan, who is in the county to enlist the boys and girls in pig and poultry clubs, presented that work and enlisted the co-operation of teachers and members of the boards of education.

Professor Clifton, of Ohio State University, presented the relation of the public school to the community in his lecture. He pointed out the increased efficiency along the line of character building and the establishment of higher standards of citizenship, as well as the more thorough arithmetic, grammar, and geography.

The great address of the day was given by Mr. John V. Bassell, president of the Commerce Club of Columbus, Ohio. His address was "The Flag." Mr. Bassell spoke as a veteran of the Civil War, whose loyalty to the Flag is virile and energetic. He did not attack the flag, but he did attack the flag, and he spoke straight from the heart.

He prophesied that the I. W. W. and other pro-foreign propagandists, who are responsible for the destruction of property and food supplies, will in the future be found decorating their posts and telephone poles. He said that there can be but two classes of people in this country now—those for the Flag, and those who support it to the last dollar and the last bit of energy, and those who are against the Flag. He was most uncompromising to those whose religion prevented them from supporting this government, and he expressed little faith in the kind of religion; while those who find that their love for the "Fadderland" is greater than it is for the country whose privileges they have long enjoyed should at once return to that "Fadderland."

Mr. Bassell's address was all fire, and called forth prolonged applause.

RUBBER manufacture has reached a stability and strength that classes it with the major industries. Next to iron and steel, rubber stands out as a product in almost universal demand. The growth of the rubber business has been amazing. It is going on today with phenomenal acceleration. A conservative and well-managed rubber enterprise, in our opinion, offers security to the investor that is excelled in no other line.

We offer the preferred stock of The Republic Rubber Corporation, of Youngstown, Ohio, believing it to be a conservative investment which will steadily increase in intrinsic value. This stock yields 7 per cent income and the company is earning largely in excess of its dividend requirements.

The corporation is disposing of this issue of preferred stock to finance the consolidation of the constituent companies which it represents, whereby many economies of operation have been effected and working capital provided to handle a 50 per cent increase of business.

The management of The Republic Rubber Corporation is in the hands of some of the ablest men in this industry. Its directors include men who are known from coast to coast for their business success.

Read their names and business affiliations. These men have guided the affairs of the corporation from infancy to its present position as one of the six or seven largest concerns in this line of manufacture.
